

FEDERASI ICE SKATING INDONESIA

INDONESIA ICE SKATING FEDERATION

COMMUNICATION No: 027/2026

INITIATION OF THE INDONESIA NATIONALS DEVELOPMENT TEAM

The Indonesian Ice Skating Federation (FISI) is honored to announce that we are initiating a collaboration with Coach Harry Janto Leo to establish the Indonesia Nationals Development Team.

This program will be divided into two groups:

- Team A : Junior Level Skaters
- Team B : Senior Level Skaters

The program is scheduled to commence following the Indonesia National Ice Skating Championship.

This initiative is designed to support the ongoing development of athletes and coaches by providing a structured platform for discussion, evaluation, and guidance on athlete progression and future development pathways. It aims to foster collaboration between coaches and provide constructive input to enhance the overall standard of skating in Indonesia.

The Development Team sessions are planned to be conducted six (6) times per year, with each session lasting one (1) hour per team.

Coaches are strongly encouraged to attend and actively participate, as this initiative is intended to provide professional advice, share insights, and support coaches in developing their skaters more effectively.

The date and time of each session will be announced once the schedule has been finalized.

FISI looks forward to the active participation and support of all parties in making this program a success.

Jakarta, 28 March 2026

Suzan Herawaty, S.E., President
